

Texas and Oklahoma Regional Resilience Cohort

In this cohort, local governments and regional planning councils in Texas and Oklahoma will learn how to assess climate change vulnerability and risk in their communities during live, web-based training sessions. Additionally, participants will have the chance to practice what they learn by completing brief exercises and taking part in web-based group work sessions. **Participation is free** thanks to generous funding provided by SPEER.

Key Topics

Participants will gain baseline understanding of:

- Climate Risk and Vulnerability Assessments (CRVAs)
- Resilience planning
- Regional climate projections
- Inclusive community engagement
- Climate and environmental equity

Effort Level

Participants will:

- Attend live, virtual training sessions
- Practice key skills with light “homework” assignments and web-based group work sessions
- Receive one-on-one technical assistance from ICLEI USA

Benefits

- Jumpstart local resilience planning with group learning and individualized support
- Understand the impact of climate hazards on vulnerable populations
- Networking and peer learning opportunities
- Learn about state and regional best practices

Submit an [application](#) by November 16 to be considered!

THIS OPPORTUNITY IS OFFERED IN PARTNERSHIP BY THE SOUTH-CENTRAL PARTNERSHIP FOR ENERGY EFFICIENCY AS A RESOURCE (SPEER) AND ICLEI USA
